

NEW MEXICO OIL CONSERVATION DIVISION
SANTA FE, NEW MEXICO

PACKER-SETTING AFFIDAVIT
(Dual Completion)

STATE OF New Mexico)

COUNTY OF San Juan)

Gene Longacre, being first dully sworn according to law,
upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Baker Packers in the capacity of
Oil Field Service Engineer and as such as its authorized agent.

That on September 26, 1978, he personally supervised the setting
of a Model "D" 5-1/2" in Supron Energy Corporation's
(Make and Type of Packer) (Operator)

Hunsaker Well No. 2-R, located in Unit Letter
B, Section 26, Township 31 North, Range 9 West, N.M.P.M.,
San Juan County, New Mexico.

That said packer was set at a subsurface depth of 7500 feet,
said depth measurement having been furnished by Blue Jet.

That the purpose of setting this packer was to effect a seal in the annular space
between the two strings of pipe where the packer was set so as to prevent the commingling,
within the well-bore, of fluids produced from a stratum below the packer with fluids
produced from a stratum above the packer. That this packer was properly set and that
it did, when set, effectively and absolutely seal off the annular space between the two
strings of pipe where it was set in such manner as to prevent any movement of fluids across
the packer.
