13. Describe Proposed or Completed Operations

This well is being evaluated for a lower Dakota pay add. It is hoped the failed packer in this well can be remediated while doing the pay add. Currently we are testing the lower Dakota in an offset well, the Grenier A #3M. We are awaiting results from that workover before proceeding with this well. Our final intentions to repair the failed packer will follow after completing and production testing the Grenier A #3M.
