Attention: Mr. DeLasso Loos

Administrative Order NSL-1309

Gentlemen:

Reference is made to your application for a non-standard location for your Northeast Blanco Unit Well No. 54A to be located 1190 feet from the South line and 2040 feet from the East line of Section 33, Township 31 North, Range 7 West, NMPM, Blanco Mesaverde Pool, San Juan County, New Mexico.

By authority granted me under the provisions of Rule 104 F of the Division Rules and Regulations, the above-described unorthodox location is hereby approved.

Sincerely,

JOE D. RAMEY,
Director

Mr. Joe D. Ramey, Secretary-Director
New Mexico Energy Resources Board
c/o New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 54A, an infill well, located 1190' F/SL - 2040' F/EL, D-33-31N-7W, San Juan County, New Mexico.

This location is on Federal Royalty, and under the surface control of the United States Bureau of Land Management, who has witnessed this proposed well site. It is located on a small flat mesa with steep cliffs to the South and East down to the Navajo Lake, and without unnecessary expense is the most logical well site agreeable to all parties.

All offset acreage is within the bounds of the Northeast Blanco Unit and will not present a drainage problem to any other operator.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.
