17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Operator proposes to aerate reserve pit fluid and close reserve pit. Fluid will be misted over reserve pit and evaporated. An aeration operator will be on site at all times as long as aeration equipment is operating. Upon evaporation of fluid, reserve pit will be closed with spoil dirt. Pit will be allowed to settle before top soil is spread and the area seeded.
