13. Describe Proposed or Completed Operations

Proposed to install two 800 HP compressors and supporting facilities as per attached diagram, to increase gas production. The Kessler Com No. 3 well pad would be used to accommodate the facilities proposed with no additional disturbance to the original construction of the pad. Meridian Oil, Inc. projects that the compressors, which are skid mounted and self-contained, will arrive in October of 1994. Installations will be started shortly thereafter. El Paso Natural Gas will supply the pipeline and right-of-way information as needed to Meridian Oil, Inc. proposed facilities.

14. I hereby certify that the foregoing is true and correct.
