Mr. Al Greer  
Oil Conservation Commission  
Aztec, New Mexico.

Dear Sir:

Re: Santa Fe Lease 078128  
J. Glenn Turner, Operator

Herewith are copies of the "Sundry Notices" and the "Log" which were filed with the U. S. Department of the Interior - Geological Survey in connection with the two wells Mr. Turner drilled on this lease:

Turner-Federal No. 1  
NE 1/4 Sec. 28, T 30N, R 9W  
San Juan County, N. M.  
Reports on Form 9-331a dated:  
October 21, 1950  
October 30, 1950  
November 16, 1950  
December 11, 1950  
January 9, 1951  
Log on Form 9-330 dated:  
January 15, 1951.

Turner-Federal No. 2  
NE 1/4 Sec. 13, T 30N, R 10W  
San Juan County, N. M.  
Reports on Form 9-331a dated:  
November 21, 1950  
December 11, 1950  
January 15, 1951  
March 10, 1951  
Log on Form 9-330 dated:  
March 10, 1951.

It is our understanding from telephone conversation with your office yesterday that filing these copies of these reports with the District Office in Aztec complies with the requirements as set forth in the printed notice "To All Operators" issued by R. R. Spurrier, Secretary-Director of the Oil Conservation Commission, Santa Fe, New Mexico under date of July 2, 1951.

If anything further is required, please inform the writer, and we will endeavor to comply. Mr. J. Glenn Turner is a prominent attorney in Dallas, Texas, and desires to comply with all Federal and State requirements in connection with any wells drilled by him.

In particular, are there any state reports necessary covering production? Well No. 1 has been hooked on to the El Paso Natural Gas system, and they have taken some gas, although not much. Well No. 2 is still shut in. Regular reports are being made, monthly, to the U. S. Geological Survey at Roswell, New Mexico.

Very truly yours,

C. Peeson Deal  
For J. Glenn Turner
