DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

April 13, 1959. Drilled to total depth of 186' RCB by cable tool - set 6 joints (175') of 2-5/8" 36# J-55 casing at 185' - cemented with 175 sacks regular cement, 2% calcium chloride. Circulated cement to surface and moved off.

Will continue drilling with rotary rig at later date.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
