## SUNDRY NOTICES AND REPORTS ON WELLS

NOTICE OF INTENTION TO DRILL	SUBSEQUENT REPORT OF WATER SHUT-OFF
NOTICE OF INTENTION TO CHANGE PLANS	SUBSEQUENT REPORT OF SHOOTING OR ACIDIZING
NOTICE OF INTENTION TO TEST WATER SHUT-OFF	SUBSEQUENT REPORT OF ALTERING CASING
NOTICE OF INTENTION TO RE-DRILL OR REPAIR WELL	SUBSEQUENT REPORT OF RE-DRILLING OR REPAIR
NOTICE OF INTENTION TO SHOOT OR ACIDIZE	SUBSEQUENT REPORT OF ABANDONMENT
NOTICE OF INTENTION TO PULL OR ALTER CASING	SUPPLEMENTARY WELL HISTORY
NOTICE OF INTENTION TO ABANDON WELL	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

April 7, 1961, 19

San Juan 32-5 Unit

Well No. 2-26 is located 600 ft. from N line and 2,450 ft. from E line of sec. 26

NW 1/4 Section 26      20-N      6-W      N.M.P.M.  
(1/4 Sec. and Sec. No.)      (Twp.)      (Range)      (Meridian)  
Basin, Dakota      Rio Arriba County      New Mexico  
(Field)      (County or Subdivision)      (State or Territory)

The elevation of the derrick floor above sea level is 6,205 ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

Dakota Test. West half of section (320 Acres) dedicated to the well. Approval of the "unorthodox" location has been obtained from the state authorities.

Casing program: Surface: 600 feet - 8-5/8" 20# casing - cemented with 250 sacks.  
Long String: 5-1/2" 17# casing will be set on bottom - expected at 8,200 feet.  
cemented with 225 sacks. Mesa Verde will be protected by using DV tool with stage collar at the bottom of Mesa Verde formation, and about 225 sacks of cement will be used in the upper stage cementing. If commercial production is indicated, well will be sand fractured, and tubing will be run.

Notice of intention to drill this well, with copies of New Mexico OGC Form C-128 - Well Location and Acreage Dedication Plat attached, were filed and approved on December 2, 1960. Well has not been mudlogged, however, hence this renewal of notice.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
