

POST OFFICE BOX 728  
FARMINGTON, NEW MEXICO

May 1, 1963.

Mr. Emery C. Arnold, Supervisor  
New Mexico Oil Conservation Commission  
District No. 3  
1000 Rio Brazos Road  
Aztec, New Mexico.

Dear Mr. Arnold:

Re: San Juan 32-5 Unit No. 1-X-19  
La Plata Gathering System, Inc. - Operator  
Basin Dakota Pool  
Unit I - Section 19 - 32-N - 5-W  
Rio Arriba County, New Mexico.

Herewith, each in quadruplicate, are the following forms with reference to the captioned well:

C-104 - Request for Gas Allowable

C-110 - Certificate of Compliance and authorization  
to transport Natural Gas

This is a dual completion - and when similar forms were forwarded to you in February with reference to the Mesa Verde formation, an affidavit by Albert Sidney Johnson, Petroleum Engineer with reference to the deviation tests was attached to the original of that Form C-104.

Testing of the Dakota formation was only completed recently, hence the forms for that Pool are just now being forwarded to you.

Pipe line connection has yet to be completed - so there has been no production from either formation to date.

Very truly yours,
