Re: 1963 Annual Packer Leakage Test
San Juan 32-5 No. 1-X-19

Dear Mr. Kendrick:

During 1963 an Annual Packer Leakage Test was not run on the San Juan 32-5 #1-X-19. I received a letter from Mr. Emery Arnold to complete the test as soon as possible. Since El Paso will soon become the operator of the 32-5 Unit, it will fall on you to run this test. A copy of Mr. Arnold's letter is attached.

It would probably be convenient for you to schedule this Packer Leakage Test in conjunction with the Annual Deliverability Test, which begins on this well on March 3, 1964.

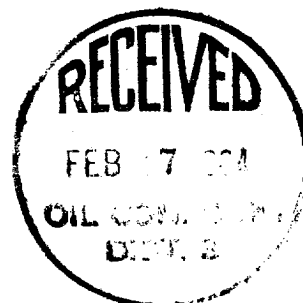

Yours very truly,

Walter M. Kilgo

Re: 1963 Annual Factor Leakage Test
San Juan 32-5 No. 1-X-12

Dear Mr. Ransdell:

During 1963 an Annual Factor Leakage Test was not run on the San Juan 32-5 41-X-12. I received a letter from Mr. Henry Arnold to complete the test as soon as possible. Since El Paso will soon become the operator of the 32-5 Unit, it will fall on you to run this test. A copy of Mr. Arnold's letter is attached.

It would probably be convenient for you to schedule this Factor Leakage Test in conjunction with the Annual Deliverability Test, which begins on this well on March 2, 1964.

Yours very truly,

J. Glenn Turner
