660/N; 1980/W, Sec. 2, Township 1 North, Range 2 East, Martin &
Borders Survey, Rio Arriba County, New Mexico

Dear Sir:

We have learned from commercial reporting services that the above well was
spudded and drilled to a total depth of 2517 feet and temporarily abandoned
on November 23, 1968, with a fish in the hole.

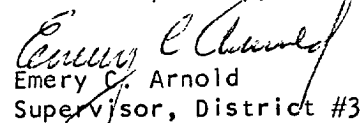

Our records do not reflect that you have filed anything other than the
Notice of Intention to Drill which was approved on October 14, 1968.

You were mailed a copy of New Mexico Oil Conservation Commission Rules and
Regulations on September 30, 1968. Please refer to Rule 1102, paragraph
B, page 72 for instructions on Commission requirements as regards subsequent
reports of drilling operations and to Rule 1105 on page 76 for instructions
on filing form C-105, Well Completion Record and Log.

We also would like to inquire as to your intentions regarding the permanent
plugging and abandonment of this well in order that we may advise your
bonding company of your plans in this regard.

May we please hear from you immediately concerning the above matter?

Yours very truly,

Emery C. Arnold
Supervisor, District #3
