17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

This Notice is in response to your letter Dated April 18, 1994. This well has not produced in some time. However, we do plan in the future to drill the well 50' to 60' deeper and complete the remaining portions of the Gallup formation. We would like to temporarily abandon the well at this time. The perforations are open hole from 7660-7717. A bridge plug will be set at 7600' with 35 feet of cement on top of plug. Plug and casing will be pressure tested to insure casing integrity. We will renew annually until further work on the Gallup can be undertaken.
