12 Point - Development Plan for Surface Use

Lone Star Industries, Inc. Schalk 63-2

1. Existing roads: Attached map shows existing road running from the Southwest corner of Section to the Southeast.
2. Proposed Access road: No new access road; using same road and most of same pad as Schalk 63-1.
3. Existing Wells: Lone Star Industries, Schalk 63-1, Schalk 62-1, and Schalk 62-2.
4. Lateral Roads: None.
5. Location of Tank Batteries: See attached.
6. Location and Type of Water Supply: Water will be taken from a water hole at south of Rincon Quemado, Approximately 1/4 mile South of location and will be transported by truck to location.
7. Methods for Handling Waste Disposal: Cuttings to be disposed of in reserve pit, a burn pit to be used for disposal of trash, garbage, etc., and covered on cleanup of location.
8. Location of Camps: None.
9. Location of Airstrips: None.
10. Rig Layout: Per attached drawing.
11. Restoration of Surface: Upon completion of drilling operations, the disturbed surface area will be restored as near as practical to its original contours. If sufficient top soil is encountered, it will be stockpiled for restoration of surface. Restoration will be to the satisfaction of the United States Geological Survey.
12. This location will be an extension of the Schalk 63-1 pad; will extend approximately 100' to the West. Vegetation is sage brush with no trees. The surrounding area is comparable and any disturbances to the wildlife will be only temporary. With the restoration of surface, surface damage will be minimal.
