RE: Caranta #1, J-23-32N-01W API # 30-039-22806

Dear John:

On May 3, 1996, CMS Oil field Services, Inc., was brought to hearing. Order number R-10590 ordered CMS Oil field Service to re-enter and complete or plug and abandon the above-mentioned well before August 3, 1996. There were several extensions approved due to downhole conditions and adverse weather problems. Weather conditions have improved and you are hereby ordered to complete or plug and abandon the Caranta #1 before July 14, 1997. This is the final extension. If the Caranta #1 is not brought into compliance by this date, the well will be plugged by the State using the plugging bond with United States Fidelity & Guaranty Co., Surety. Bond # 19-0130-29849-96-9. If I can be of any help in this matter feel free to call at (505)334-6178.

Sincerely,

Johnny Robinson
Deputy O&G Inspector
