13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This Fruitland Coal well produces with a high water cut and the formation has not been adequately tested. We are currently investigating water disposal options in the area to find an economical disposal facility. A long term shut in is requested until October 31, 1998 to allow time to secure a disposal contract.
