RE: Application for Unorthodox Location
Nassau Resources, Inc.
Carracas Unit 25 B #13
1010' FSL - 580' FWL
Sec. 25, Township 32 North, Range 4 West, NMPM
Rio Arriba County, New Mexico

Gentlemen:

Nassau Resources, Inc., hereby requests administrative approval of an unorthodox location for the captioned well based upon topographic conditions and Carson National Forest requirements.

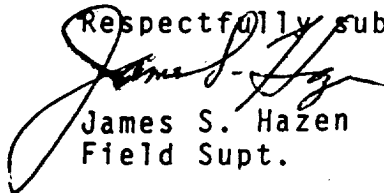

Due to the extremely rough terrain, this proposed location is the only suitable location on this lease which meets Carson National Forest guidelines for development. Its proximity to other proposed well locations in Sections 26 and 35 will allow the least amount of access road and will also minimize the loss of timber.

This well is in Nassau's Carracas Unit. All offsetting operators, as shown on the attached lease plat, are being notified by copy of this Application by certified mail.

Also attached are production and topographic maps of the area and the C-102 Plat.

Please contact us if anything further is required to complete this application.

Respectfully submitted,

James S. Hazen
Field Supt.
