**RE: JOHN A. BRIMHALL #1 WELL SITE
SAN JUAN COUNTY, NEW MEXICO**

Dear Mr. Brasuel:

The New Mexico Oil Conservation Division (OCD) has completed a review of Nassau Resources August 31, 1994 "JOHN A. BRIMHALL #1 WELL SITE, NASSAU RESOURCES, INC., SAN JUAN COUNTY NEW MEXICO". This document contains the results of the 3rd quarterly sampling conducted at the Nassau Resources John A. Brimhall #1 well site during August of 1994 and requests final site closure based upon past and present analytical sampling results.

Based upon a review of the available information submitted to date, the request for final site closure is approved.

Please be advised that OCD approval does relieve Nassau of liability should remaining contaminants pose a future threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve Nassau of responsibility for compliance with any other federal, state or local laws and/or regulations.

If you have any questions, please contact me at (505) 827-7154.

Sincerely,

A handwritten signature in cursive script that reads "Will C. Olson".
