Attention: Fran Perrin

Administrative Order NSP-1597(L)

Dear Ms. Perrin:

Reference is made to your application dated February 14, 1990 for a 236.72-acre non-standard gas proration unit consisting of the following acreage in the Basin-Fruitland Coal Gas Pool:

RIO ARriba COUNTY, NEW MEXICO
TOWNSHIP 32 NORTH, RANGE 5 WEST, NMPM
Irregular Section 10: Lots 1 through 4 and the S/2 N/2

It is my understanding that this unit is to be dedicated to your Carracas Unit "10-A" Well No. 8 to be drilled at an unorthodox coal gas well location 800 feet from the North line and 540 feet from the East line (Unit H) of said Section 10, hereby approved pursuant to the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768.

RE: Application for Unorthodox Location and
Non-standard Proration Unit
Nassau Resources, Inc.
Carracas Unit 10 A #8
800' FNL - 540' FEL
Sec. 10, T32N, R5W, NMPM
Rio Arriba County, N. M.

Gentlemen:

Nassau Resources, Inc. hereby requests administrative approval of an unorthodox location for the captioned well based upon topographic conditions and Carson National Forest requirements.

As indicated by the attached topographic map, the terrain in this section is extremely rough and no other drill sites are feasible which meet Carson National Forest guidelines for development. Also cultural resources have ruled out development of other locations in this section.

Nassau Resources, Inc. also requests administrative approval of a non-standard proration unit. Section 12 is a fractional section, bordering the State of Colorado on the north. The non-standard proration unit consists of 236.72 acres.

This well is in Nassau's Carracas Unit. Amoco Production Co. and Meridan Oil, offsetting operators as indicated by the attached lease plat, have been notified of this application by certified mail. Kindermac Partners is an operating affiliate with Nassau Resources, Inc. and has been notified of this application.

Also attached are the C-102 plat, lease plat, production map, and a copy of a letter from Philip Settles of the Jicarilla Ranger District of Carson National Forest.

WELL LOCATION AND ACREAGE DEDICATION PLAT

All Distances must be from the outer boundaries of the section

Operator Nassau Resources, Inc.			Lease Carracas Unit 10 A		Well No. 8
Unit Letter H	Section 10	Township 32 North	Range 5 West	County NMNM Rio Arriba	
Actual Footage Location of Well:					
800 feet from the North line and		540 feet from the East line			
Ground level Elev. 7590	Producing Formation Basin Fruitland Coal		Pool Fruitland Coal	Dedicated Acreage: 236.72 Acres	

1 Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.

2 If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).

3 If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communization, unitization, force pooling, etc?

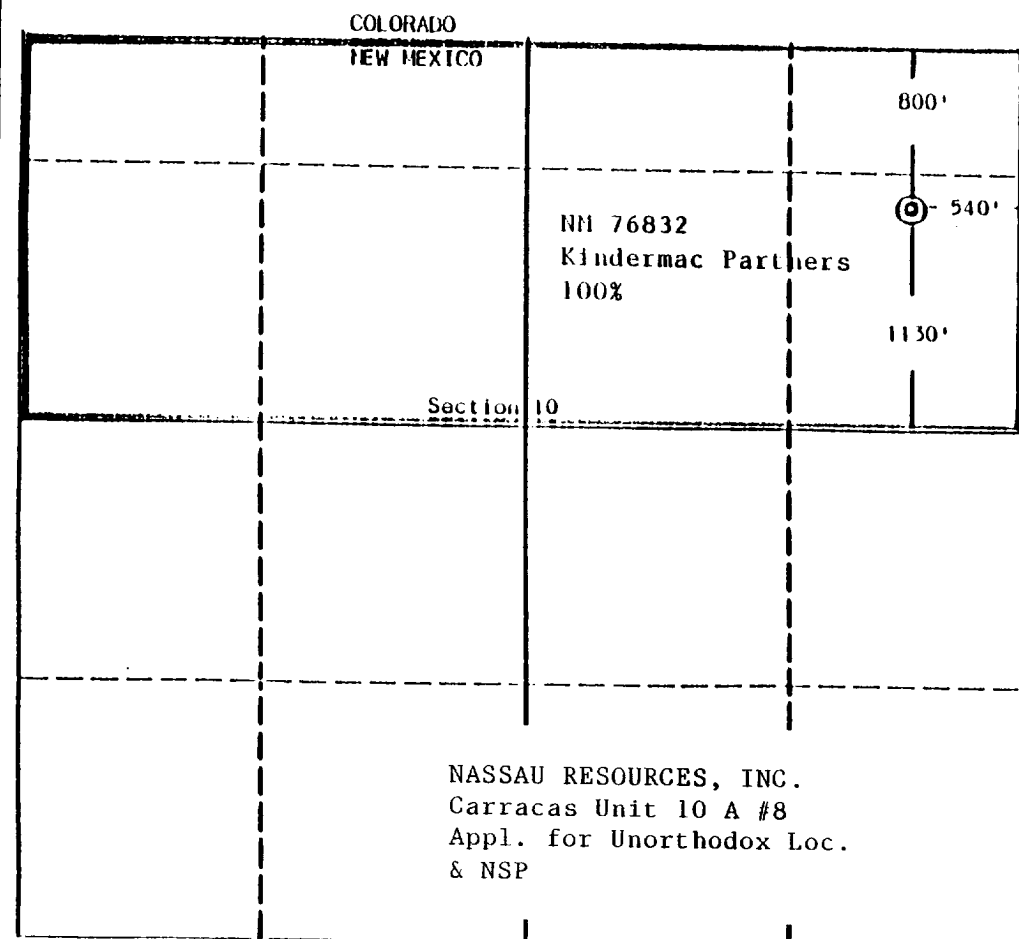

☒ Yes

☐ No

If answer is "yes" type of consolidation **Unitization - Carracas Unit**

If answer is "no" list the owners and tract descriptions which have actually been consolidated (Use reverse side of this form if necessary).

No allowable will be assigned to the well until all interests have been consolidated (by communization, unitization, forced pooling, or otherwise) or until a non standard unit, eliminating such interest, has been approved by the Division.

Mr. James Hazen
Nassau Resources, Inc.
P.O. Box 809
Farmington, New Mexico 87499

Dear James:

It was brought to my attention by Mike Atchison that you will be needing to apply for some unorthodox locations for some of the wells in the Carracas Unit. The current location in need of unorthodox approval is the well location just northwest of the Carracas Administrative site, Section 18, T. 32 N., R. 4 W. The need for moving the location to the new site is based upon wildlife habitat protection and in keeping within the guidelines set forth in the Carson Forest Plan. The Plan, as you know, has a major emphasis in wildlife and wildlife habitat. Also key to this request for moving the location is the current Off-Road-Vehicle restriction policy in place over the entire Carracas Unit. This restriction is in place to limit off-road-vehicle travel within a key wildlife management area so that security area will not be lost by unnecessary road construction.

Whenever possible, locations will be required to be placed along open access roads. Further unorthodox locations can be expected within the Carracas Unit to keep in line with the management direction set forth for this area.

Because of this management direction and the probability of future relocations, I would hope the approval of these unorthodox locations can become routine. If not, please don't hesitate to contact me for further help or if needed to appear in person before the approving officer. If you have any questions, please give me a call.

Sincerely,

Philip R. Settles
