WASHINGTON, D. C. 20508

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

January 13, 1962, 19

San Juan 32-5 Unit  
Well No. 1-27 is located 840 ft. from [N] line and 735 ft. from [E] line of sec. 27  
NE/4 Section 27 32-North 6-East N. M. P. M.  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Basin Dakota Rio Arriba County New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6,151 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, and other important proposed work)

Dakota well.

When notice of intention to drill the captioned well was filed on June 12, 1961 New Mexico Form C-128 - Well location and acreage dedication plat - was attached to each copy of the notice - dedicating the East Half of Section 27 (320 acres) to the well.

Revised Form C-128 is attached to each copy of this notice - dedicating the North Half of Section 27 (320 acres) to the well, and approval is respectfully requested.

This change is necessary, as due to the encroachment of water occasioned by the building of the Navajo dam - a second well in the section will have to be drilled in the SE/4 rather than the SW/4.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
