17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

A second approval is requested to retain this well in its present temporarily abandoned status. An evaluation is being conducted to determine the feasibility of plugging back to the Mesa Verde or Pictured Cliffs formations. Pending the outcome of this evaluation the well will either be recompleted or permanently plugged. Until the prescribed work is done, periodic visits will be made to the wellsite to check the bradenhead and surface equipment to insure the well stays in good condition.
