DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill a well at the above location to an approximate total depth of 1700'. 100' of 8 5/8" O.D. casing will be set and cemented to surface. Completion is contemplated in the Gallup formation. A 4 1/2" O.D. casing oil string will be used.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

1. The first of these is the fact that the United States has a large and growing population of people of Mexican descent. This population is concentrated in the southwestern United States, particularly in California, where it is estimated that there are over 10 million people of Mexican descent. This population is growing rapidly, and it is expected that by the year 2000, there will be over 15 million people of Mexican descent in the United States.
