

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

March 19, 1964

*Pubco Petroleum Corporation
P.O. Box 1419
Albuquerque, New Mexico*

Gentlemen:

The annual deliverability testing schedule on file in this office indicates that your Pubco State #6 well is now on deliverability test and will have the shut-in pressure measured on Monday, March 23, 1964. We are conducting a pressure study in this area and are requesting that bottom hole pressures be measured on this well at the time the surface pressure is determined.

Please have your local representative contact us by telephone when these pressures will be measured Monday in order that we may have a witness present.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*

Gentlemen:

The annual deliverability testing schedule for this field is being
office indicated that your field does not fall in line with
deliverability test and will have the same test pressure
maintained on Monday, March 23, 1964. We are enclosing
pressure study in this case and are suggesting that bottom
hole pressure be recorded on this test at the time the
surface pressure is determined.

Please have your local representative contact us by telephone
when these pressures will be recorded. We are aware that
we will have a witness present.

Sincerely,
[Signature]
