17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Summary of work done 5/20/77 through 5/25/77:

Moved in pulling unit for clean-out job. Pulled tubing, cleaned out sand, cement, hit down solid @ 5016'. Ran sand line drill and drilled out bridge plug. Ran tubing & cleaned out metal pieces and sand to 5195'. Swabbed well on, cleaned up, turned back to sales line.

NOTE: Perforated interval 5035-55', 5069-91', 5105-47', 5183-91' was fracture treated as part of recompletion in May, 1960. After treatment, interval was isolated with bridge plug @ 5016'. Bridge plug was not drilled out during the 1960 recompletion. Perforations from 5035' to 5191' have therefore not been open to production until this time.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
