17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This injection well was shut in October 1972 for further evaluation of production in the "D" areas of the unit resulting from this injection.  
This well is in a large Unit which is now under waterflood operations. Future plans are to conduct waterflood and tertiary recovery studies. These studies may result in a revised waterflood plan or in a tertiary recovery program that may require the use of this well in order to recover the maximum amount of oil from this reservoir.

TEMPORARY ABANDONMENT  
EXPIRES

**JUN 1 1977**

Two copies sent to New Mexico Oil Conservation Commission  
18. I hereby certify that the foregoing is true and correct
