Dear Sir:

We are as of this date approving your Notice of Intention to Drill on the #1 State well in the NE $\frac{1}{4}$ Section 36-31N-11W; however we note that you intend to cement 200 feet of 10-3/4" in a 13-3/4" hole with 75 sacks of cement. The rules and regulations specify that cement must be circulated to the surface on all surface strings. We doubt that 75 sacks will circulate on that size hole at that depth.

If you want an approved copy of the Notice of Intention to Drill for your files please submit one more copy. We are enclosing a memorandum regarding submittal of forms.

Yours very truly,

Emery C. Arnold
