FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Resumed operation November 11, 1950, after allowing cement to set 48 hours. Hole then drilled to T.D. 492'. At this depth it was found that casing had collapsed and it would be impractical to attempt to carry this hole deeper. We now propose to plug and abandon this hole according to the following plan: Hole to be filled with heavy mud and steel marker cemented in the top. This marker to be 4" in diameter and will extend 4' above the surface.
