Well No. **24** is located **2000** ft. from **S** line and **2000** ft. from **E** line of sec. **20**

1st 2nd Sec. 20 **20N** **20W** **N.20.20.20**

(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Navajo-4th Div. **2nd Div.** **New Mexico**

(Field) (County or Subdivision) (State or Territory)

The elevation of the **ground** above sea level is **5000** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This water injection well is presently completed only in the Upper Gallup formation. We propose also to inject water into the Lower Gallup, by cutting a notch at 2130-2140' and fracturing with water containing 20,000 of 20/60 mesh sand.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
