13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Central Resources, Inc. requests approval for Long Term Shut-In status for the subject well. This well has passed an MIT and well status has not changed. I have attached a well bore diagram for your use and information. The well is areally proximal to a study to develop the "C" zone potential of the unit. We wish to preserve this well for possible use in the development of the zone. We will have made a decision with in a year and will propose plugging this well, if we can not use it to develop the remaining potential of the property.
