CASING RECORD

Weight	Threads per inch	Length	Amount	Kind of shoe	Cut and pulled from	Performed
100	10	10	10			10

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If pits or bridges were put in for water, state kind of material used, position, and results of pumping or bailing.
