Mr. Emery Arnold  
New Mexico Oil Conservation Commission  
1000 Rio Brazos  
Aztec, New Mexico

Dear Sir:

On May 18, 1961, we submitted a Notice Of Gas Connection, Form 23-55, reporting a gas connection on May 1, 1961 and first delivery on May 15, 1961 of the Mudge #18, located G 15-31-11.

Our measurement department has examined the chart and determined that the well did not produce a measureable amount of gas. Therefore, the connection notice should be considered void.

Very truly yours,

EL PASO NATURAL GAS COMPANY
