Re: W.P. Carr #1 Larcher Pooled Unit
K-7-31N-10W, Blanco Mesaverde

Dear Mr. Carr:

Gas is escaping at the surface in the Animas River Valley in the proximity of the subject well. We are anxious to learn the source of the gas.

We are asking for a bradenhead test as soon as possible on the subject well. We will provide a witness for the test.

If there are any questions please contact us.

Yours very truly

A. R. Kendrick
Engineer, District #3
