Dear Mr. Aab:

Order R-1670-V, enclosed, approves a second well to be drilled on each proration unit within the Basin Dakota Pool. A similar order R-1670-T authorizes infill drilling in the Blanco Mesaverde Pool.

Both wells on the drill tract must be operated by the same operator and have the same name and number in order for us to assign the proper allowables to the wells. A copy of the well identity memorandum is enclosed for your convenience.

If these criteria cannot be met, a case should be called before the Division to request exceptions to the 320-acre spacing provisions of Orders R-1670-V (Dakota) and Order R-1670-T (Mesaverde).

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick  
District Supervisor
