October 20, 1998

Note: This program is intended as a guide, to be closely followed as long as actual conditions agree reasonably well with predrilling predictions. When substantially different actual conditions are encountered, the Mobil Drilling Supervisor will take appropriate action to safely and economically control the new conditions and will advise his supervisor of such actions as soon as job conditions permit.

OBJECTIVE: P&A as per requirements. The current condition of the well is that there is production equipment in the hole. NOTIFY Steve Mason (505-599-8907) with BLM and Johnny Bennett/Gail LeslieBob (520-871-6587) with NAVAJO EPA 48 HOURS PRIOR TO RIG UP. Document date and time of notifications of both parties.
