RE: *Injection Pressure Increase*
Mudge "LS" Well No. 16
San Juan County, New Mexico
B-10-31N-11W

Dear Sir:

Reference is made to your request dated July 10, 1991, to increase the surface injection pressure on the Mudge "LS" Well No. 16. This request is based on a step rate test conducted on the well on June 28, 1991. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.
