Dear Mr. Chavez,

I am requesting that the following wells be approved for 1988 deliverability test rescheduling. The 1988 calculated deliverability for the wells is considerably less than the 1987 YAQ.

Below are explanations to justify the need for the retests.

Grenier #14 (Basin Dakota - "C" 07-31-11) - partial location
freeze, 1987 YAQ = 153, 1988 D = 113.

Grenier #15E (Basin Dakota - "K" 18-31-11) - partial location
freeze, 1987 YAQ = 624, 1988 D = 470.

If you have any questions or further explanation is needed, please call.

Sincerely,

Ronald F. Headrick
Production Supervisor
