17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This is to request permission to extend the shut in period for the captioned well for six months. The well went down March 12, 1988. Under current market conditions, the well is uneconomical to pull and repair but it is felt that conditions may improve enough within that period to justify repairing the submersible pump and increasing water injection within the field.

Previous sundry notices were filed incorrectly using the Navajo Tribe of Indians "F" #101 water injection well location and name. A correction to request deletion of those notices is attached herewith.
