This notice will serve as clarification of the current status of this well for the record.

The well was originally completed 12/26/63 as a producing oil well; on 4/15/65, the well was converted to a water injection well. Per well report data in our files, the well was returned to production on 11/7/73, prior to Solar Petroleum, Inc. acquiring operations. There are no regulatory forms in our files documenting this return to production.

This notice is being filed to confirm the well's current status as a producing oil well.

18. I hereby certify that the foregoing is true and correct
