Re: Navajo Tribe of Indians F 110 M-3-31N-17W

Gentlemen:

NMOCD monthly production report (form C-115) shows this well is being injected into at 500 PSI. The pressure limitation is 200 PSI. This situation must be rectified as soon as possible. Perhaps you can change your injection pattern, convert some of your TA wells to injection wells, or apply with the Division Director for a pressure limit increase.

If you have any questions, please call.

Yours truly,

Charles Gholson
Deputy Oil & Gas Inspector
