Clarification of Well Status

XXX

(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This will serve as clarification of the current status of this well for the record.

On 1/21/80, Hicks Enco, Inc. applied to the New Mexico Oil Conservation Division to convert this well from a producing well to an injection well. This was evidently approved and the well was converted to a water injection well. There are no forms in our file documenting this conversion.

This form is being filed simply to confirm the well's current status as a water injection well.
