If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well was completed with 2 7/8" tubing as a injection well only. I therefore plan to bull-head with 10 lb neat class "B" cement down the casing (2 7/8" tubing) from bottom to surface.

Plan to erect P&A marker, clean location, reseed with specified seed on suggested date
This well is planned for plugging in 1999.
