13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Intend to move in service rig, pull tubing & packer, redress packer, run tubing, reset packer @ 1080' & test annulus. If the casing & packer hold (800 PSI, lease injection PSI) I plan to notify the E.P.A. & do a M.I.T. and began injecting water. If the annulus does not hold, I will submit plugging & abandonment request. I have waited on the availability of a service rig for over four months. Now that I have a rig available, I am 9 wells behind. I estimate the above mentioned work can began around the 1st of Dec. 1998.

14. I hereby certify that the foregoing is true and correct
