Dear Sir:

As you know there were two 1958 Annual Deliverability Tests submitted on the El Paso Natural Gas Scott No. 5, a machine calculated test and one calculated in our Farmington office.

An examination of our office records revealed the machine copy to be the correct one. This copy has a corrected Q of 722 MCFD and a Deliverability of 892.

Please disregard the other test. Thank you for your efforts in this matter.

Yours very truly,
