13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

A recent SLM showed that 7" casing had fallen out of slips. An attempt will be made to spear into the casing and re-land. Then a GSL will be run and if there is PC present we will recomplete this well as a PC producer only after the MV interval is plugged back. Brief details of the procedure are as follows:

MIRU. ND WH & NU BOP. COOH w/1-1/4" tubing. RIH w/center spear to re-land casing. RIH w/bit & scraper & CO to 5600'. COOH. RIH w/CIBP & set @ 5580'. Load hole. COOH. Run GSL from CIBP to 500' or TOC. Run CBL/GR/CCL. COOH. Load annulus and PT casing & CIBP to 500 psi for 30 minutes. The Mesaverde may be permanently abandoned at this time or a 4-1/2" casing may be run and cemented, depending on the CBL. Either way the BLM will be notified before we proceed remediation. If the PC is present, we will perforate and stimulate the PC interval. RIH w/2-3/8" 4.7# tubing. ND BOP, NU WH & PT- OK. Pump off expendable check and return well to production as a PC producer only. RD & released rig.

The PC partners have agreed to pay for the MV plugging and casing repair for this well if the PC interval is present. If the GSL

14. I hereby certify that the foregoing is true and correct. <b>Electronic Submission #6441 verified by the BLM Well Information System For PHILLIPS PETROLEUM COMPANY, sent to the Farmington Committed to AFMSS for processing by Lucy Bee on 08/17/2001 ( )</b>
