13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

A Sundry was approved 5/23/95 to P&A this well. This work was scheduled to be completed during Conoco's fall well work program. Due to completions associated with the workover rig being located very near a busy field road intersection and requiring 24-hour monitoring, the work was not done last fall.

It has been rescheduled as the first project of another work window to begin in February, 1996 and should be completed by 3/1/96.
