El Paso Natural Gas Company
P. O. Box 1492
El Paso, Texas 79999

Attention: Mr. T. W. Bittick

Administrative Order NWU-534

Gentlemen:

Reference is made to your application for approval of a 151.62-acre non-standard gas proration unit in the Aztec-Pictured Cliffs Gas Pool consisting of the following acreage:

SAN JUAN COUNTY, NEW MEXICO
TOWNSHIP 31 NORTH, RANGE 11 WEST, NMPM
Section 20: SE/4 (Lots 3, 4, 5, and 6)

It is understood that this unit is to be dedicated to your Mudge Well No. 28; located 890 feet from the South line and 1650 feet from the East line of said Section 20.

By authority granted me under the provisions of Order No. R-1670, as amended, you are hereby authorized to operate the above-described acreage as a non-standard gas proration unit.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director

[illegible]

1. The first step is to identify the problem or goal. This involves understanding the current situation, identifying the problem, and setting a clear goal. 2. The second step is to gather information. This involves researching the problem, identifying the causes, and gathering data. 3. The third step is to analyze the information. This involves identifying the key factors, identifying the relationships, and identifying the potential solutions. 4. The fourth step is to develop a plan. This involves identifying the steps to be taken, identifying the resources needed, and identifying the timeline. 5. The fifth step is to implement the plan. This involves taking the steps, using the resources, and following the timeline. 6. The sixth step is to evaluate the results. This involves comparing the results to the goal, identifying the strengths and weaknesses, and identifying the areas for improvement. 7. The seventh step is to make adjustments. This involves making changes to the plan, resources, or timeline as needed. 8. The eighth step is to monitor the progress. This involves tracking the progress, identifying the challenges, and identifying the opportunities. 9. The ninth step is to report the results. This involves communicating the results to the relevant stakeholders, identifying the key findings, and identifying the recommendations. 10. The tenth step is to reflect on the process. This involves reflecting on the process, identifying the lessons learned, and identifying the areas for improvement.
