(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

September 10, 19 65

Navajo Tribal 21
Well No. 1 is located 1980 ft. from [N] line and 1980 ft. from [E] line of sec. 33

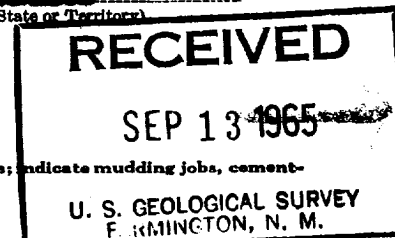

SE 1/4 of NE 1/4 Section 33 T1N 10E Range
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Undesignated San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 9215 ft.

DETAILS OF WORK

(State names of sand expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We would like to defer permanent abandonment until completing the geological and engineering studies currently in progress.

Navajo Tribal 21-1 is still safely cased and controlled and is periodically checked by field personnel. No hazard will be created by deferring abandonment.

We request approval to leave the well temporarily abandoned.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
