Gentlemen:

We are forwarding you all information on Navajo Tribal 21-36-2 previously sent to USGS in Farmington.

Current status of Navajo Tribal 21-36-2 is the same as stated in our supplementary well history report (9-331b) dated May 22, 1964.

We would like to defer permanent abandonment until completing the Geological and Engineering studies currently in progress.

Navajo Tribal 21-36-2 is still safely cased and controlled, and is periodically checked by field personnel. No hazard will be created by deferring abandonment and we appreciate your consideration in the matter.

If additional information is required, please advise.

Yours very truly,

D. T. Magee / EUM
