13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Amoco Production Company requested permission to recomple the subject well into the Mesaverde formation and dually produce the well with the existing Dakota formation and has not performed the work because of its decision to include this location in a 3-D Seismic Survey. The survey has been done and Amoco is in the process of interpreting the data. In response to your demand letter dated June 9, 1995, please be advised Amoco anticipates the recompletion of this well will be completed by December 31, 1995.

If you have any questions please contact me at the telephone number listed above.
