13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Cross Timbers Operating Company request permission to leave the well in its shut in status for 1 year. CTOC is in the process of evaluating the results of the recent completions for its 1999 drilling program. The well is being evaluated for re completion prospects in the Dakota formation.

CONDITIONS OF APPROVAL

The Gas Shut-In Status (GSI) for the referenced well is extended for a one year period commencing on 10/19/99 until 10/19/2000 after which time the wells must be (1) Returned to production (2) Plugged and abandoned. (3) Request for extension of status with economic justification. If you desire a status extension, a Mechanical Integrity Test (MIT) of the well(s) will be required.
