17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well has logged off due to water production. We plan to set a drillable bridge plug at 2470' in order to determine if water can be shut off. The bridge plug will shut off production from the two lowest Fruitland intervals (2600'-08' and 2668'-76') and we will test production from Top interval. (2451' - 59')

Work will commence in late August, 1974.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
